CARECLEAN CEMENT REMOVER

- Biodegradable
- Highly effective

For removal of cement deposits & lime wash residues

DESCRIPTION

Careclean Cement Remover is a strong acid based product, specially designed for the removal of cement deposits from most common surfaces and to remove lime wash residues from bulk heads.

ADVANTAGE

- Fast and efficient cement removal
- Inhibits against acidic attack on cleaned ferrous surfaces
- Forms a protective layer on steel surfaces to which paint adheres readily
- Biodegradable
- Non flammable

APPLICATIONS

Careclean Cement Remover is used for removing cement residues from all common metal surfaces. It is not to be used on zinc, aluminum, galvanized materials and stainless steel.

Cargo Hold Cleaning

Careclean Cement Remover is used to clean cargo holds after carrying Cement or when holds are lime washed. After sweeping and demucking apply Careclean Cement Remover in a 10 - 50 % solution depending on the contamination. Let the product soak for 30 minutes making sure not to let the solution dry on the surface. Then spray off with water.
