# CARETREAT BIO MSC

**Enzymatic concentrated cleaner and long lasting odor killer for water resistant surfaces and textiles onboard of ship interiors**

## DESCRIPTION

Caretreat BioMSC is a pH neutral cleaner that leaves an enzymatic active film on the surface that continues to break down odor causing deposits such as urine, food and drink residues. It can be applied as spray or mopping/brushing on carpets, curtains, in sanitary areas including toilets.

## ADVANTAGE

- Multi purpose cleaner/odor killer
- Works on both hard and soft (textile) surfaces
- Safe product for user and environment

## APPLICATIONS & INSTRUCTIONS FOR USE

**Shake product before dosing.** Start up: 30% solution in fresh water, 1 liter of solution is sufficient for 8 - 10 m<sup>2</sup>. For daily cleaning: use a 1—2% dilution rinse of Caretreat BioMSC. Apply by mopping or spraying the solution onto the surface. Mop dry but do not rinse with water.

Once diluted, the solution of Caretreat Bio MSC can be kept for cleaning for maximum 3 days. Do not use other high or low pH cleaners or disinfectants once treatment with Caretreat BioMSC has started as they will break down the enzymatic cultures that break down odors

## DOSAGE IN FRESH WATER (5°C—30°C)

|                          |        |
|--------------------------|--------|
| Start up                 | 30%    |
| Daily                    | 1—2,5% |
| Refreshment with sprayer | 10%    |

## PROPERTIES

|                |                     |
|----------------|---------------------|
| pH             | 6,3—6,8             |
| Density        | 1 at 20 °C          |
| Flashpoint     | none                |
| Physical state | Liquid, light green |

*For detailed information on safety and health, please refer to the Material Safety Data Sheet MSDS and/or product label.*

- Economic in use
- Long lasting odor control
- Safe for use on all water proof surfaces
