

CARECLEAN CAUSTIC SODA

Concentrated Caustic Soda flakes to boost cleanings.

DESCRIPTION

Careclean Caustic Soda is concentrated caustic soda in solid form. It can be used to boost cleaning solutions or stand alone cleaning solution.

ADVANTAGE

- Effective boost on wide range of cargoes
- Enables cleaning at lower temperatures

APPLICATIONS

Tank Cleaning

Careclean Caustic Soda can be used in recirculation or direct injection applications. After discharging, prewash the tanks with seawater, preferably at a temperature of 60°C. Prepare a cleaning solution inside the tank which has to be cleaned. Depending on contamination, add 0,5 % Careclean Caustic Soda as a booster. The solution can be used in a range of 10 - 80°C. Start circulation. Continue circulation for about 2-4 hours. The product has very limited foaming properties. Flush tank with water and drain the tank.

DOSAGE

Recirculation/direct injection 0,5 %

PROPERTIES

Flashpoint	N/A
Physical state	solid, flakes
Density	N/A
pH 1%	>12

APPROVALS

- IMO approved in accordance with MEPC 590 Guidelines

For detailed information on safety and health, please refer to the Material Safety Data Sheet MSDS and/or product label.
