CARETREAT PL

Liquid product for water contact prevention in cofferdams for water sensitive cargoes

DESCRIPTION

Caretreat PL is a liquid consisting out of phthalates developed to work as an inert medium in cofferdams connected to the frame deepwell pump. When carrying water sensitive cargoes, the cofferdam can be filled with Caretreat PL to prevent reaction/polymerization of the cargo via the pump oil/mechanical seals.

ADVANTAGE

- Easy to use, product ready for use
- Ensures absence of water
- Safe for workers

APPLICATIONS

Only applicable in cofferdams or other closed compartments that can cause a water contamination risk.

DIRECTIONS FOR USE

Minimum of 5-10 liters undiluted Caretreat PL should be dosed into the dry Nitrogen purged cofferdam prior loading the water sensitive cargo and remain in the cofferdam until tank cleaning after discharge operation is well underway. It can be removed from the cofferdam by purging with nitrogen and flushing with fresh water. The product can be reused if stored free from water and in closed packaging.

PROPERTIES

pH	7 - 8
Density	0,9 - 1,0 g/cm ³
Flashpoint	> 200 °C
Physical state	Liquid, transparent t

For detailed information on safety and health, please refer to the Material Safety Data Sheet MSDS and/or product label.

- Easy in use
- Does not mix with water
- Long term protection
