CARECLEAN FILTER

Liquid cleaning agent for removal of (partially) carbonized oil residues

- Non corrosive on metals
- Highly concentrated
- Approved by: Marinfloc, OWS compatible
- Non toxic

DESCRIPTION

Careclean Filter is a liquid blend of solvents. The product is used for cleaning of carbonized deposits in fixed oil coolers, oil pre-heaters and metal/ceramic oil filters.

ADVANTAGE

Careclean Filter is a highly concentrated product that removes (partially) carbonized oil and tarlike deposits from ferro and non ferro metals. Timely/regular cleaning prevents the formation of coke-like adherents.

APPLICATION

Careclean Filter is used in circulation for the cleaning of permanently fixed oil coolers, oil pre-heaters and metal/ceramic oil filters. These units are regularly contaminated by particles and partially carbonized oils. Timely cleaning prevents the formation of coke-like adherents which are difficult or impossible to remove.

Immersion baths

Put the filters in a steel bath filled with undiluted Careclean Filter and let them soak, depending on the degree of contamination for 2 to 10 hours. Take out the components and flush clean with a powerful waterjet.
